- Php, Html, Css, Javascript
- Quality Assurance
- N8N Automation
- Digital Art

PROFESSIONAL EXPERIENCE

Endless Logic Innovations IT & Business Solutions (ELI) – Valenzuela City, Philippines
Full Stack Developer, May 2025 – June 2025
- Promoted from trainee after demonstrating excellent performance during the internship. Currently leading end-to-end management of the company's HR Information System, designing and developing features including BIR templates (Bureau of Internal Revenue) for reducing manual calculation of tax and input information.

Endless Logic Innovations IT & Business Solutions (ELI) – Valenzuela City, Philippines
Intern – Full Stack Developer, February 2025 – May 2025
- Performed system maintenance and optimization, resolving complex bugs and implementing front-end enhancements.
- Developed AJAX solutions and Query separations to optimize data loading and eliminating full-page reloads during data fetches.
- Created PHP data models enabling single-click database schema updates for production environments, significantly simplifying database management in virtual OS deployments.
- Implemented automated notifications for request workflows (e.g., Leave Request, Official Business Request, Undertime Request).

EDUCATION

STI College Novaliches
Bachelor of Science in Information Technology, 2021 – 2025

Academic Achievements

- Cum Laude - GPA 1.35
- Appcon 2023 Participant - 3rd Year
- Most Commendable Lead Programmer - 2nd Year
